

Data Dictionary Views for group 0

DBA View Name	Dictionary Comments
ALL\$OLAP2_AWS	
ALL_ALL_TABLES	Description of all object and relational tables accessible to the user
ALL_ANALYTIC_VIEWS	Analytic views in the database
ALL_ANALYTIC_VIEW_ATTR_CLASS	analytic view attribute classifications in the database
ALL_ANALYTIC_VIEW_BASE_MEAS	Analytic view base measures in the database
ALL_ANALYTIC_VIEW_CALC_MEAS	Analytic view calculated measures in the database
ALL_ANALYTIC_VIEW_CLASS	Analytic view classifications in the database
ALL_ANALYTIC_VIEW_COLUMNS	Analytic view columns in the database
ALL_ANALYTIC_VIEW_DIMENSIONS	Analytic view Dimensions in the database
ALL_ANALYTIC_VIEW_DIM_CLASS	Classifications of the analytic view dimensions in the database
ALL_ANALYTIC_VIEW_HIERS	Analytic view hierarchies in the database
ALL_ANALYTIC_VIEW_HIER_CLASS	Analytic view hierarchy classifications in the database
ALL_ANALYTIC_VIEW_KEYS	Analytic view keys in the database
ALL_ANALYTIC_VIEW_LEVELS	Analytic view levels in the database
ALL_ANALYTIC_VIEW_LEVEL_CLASS	analytic view level classifications in the database
ALL_ANALYTIC_VIEW_LVLGRPS	Level groupings for an analytic view
ALL_ANALYTIC_VIEW_MEAS_CLASS	Analytic view measure classifications in the database
ALL_APPLY	Details about each apply process that dequeues from the queue visible to the current user
ALL_APPLY_CONFLICT_COLUMNS	Details about conflict resolution on tables visible to the current user
ALL_APPLY_DML_CONF_COLUMNS	Details about dml conflict handler column groups on objects visible to the current user
ALL_APPLY_DML_CONF_HANDLERS	Details about dml conflict handlers on objects visible to the current user
ALL_APPLY_DML_HANDLERS	Details about the dml handler on tables visible to the current user
ALL_APPLY_ENQUEUE	Details about the apply enqueue action for user accessible rules where the destination queue exists
ALL_APPLY_ERROR	Error transactions that were generated after dequeuing from the queue visible to the current user
ALL_APPLY_ERROR_MESSAGES	Details about individual messages in an error transaction
ALL_APPLY_EXECUTE	Details about the apply execute action for all rules visible to the user
ALL_APPLY_HANDLE_COLLISIONS	Details about apply collision handlers on objects visible to the user
ALL_APPLY_KEY_COLUMNS	Alternative key columns for a STREAMS table visible to the current user
ALL_APPLY_PARAMETERS	Details about parameters of each apply process that dequeues from the queue visible to the current u
ALL_APPLY_PROGRESS	Information about the progress made by the apply process that dequeues from the queue visible to the
ALL_APPLY_REPERERROR_HANDLERS	Details about apply reperror handlers on objects visible to the user
ALL_APPLY_TABLE_COLUMNS	Details about the columns of destination table object visible to the user
ALL_ARGUMENTS	Arguments in object accessible to the user
ALL_ASSEMBLIES	Description of assemblies accessible to the user
ALL_ASSOCIATIONS	All associations available to the user
